

Placement Statistics for the month of August, 2007

Out-of-home placement is the last option considered when reasonable efforts to protect a child in his or her own home have been exhausted by OCS. The first preference considered in all out-of-home placements for a child or youth is a relative's home. When it is not possible to place a child with a relative it is necessary to place the child in a licensed foster home. Residential care facilities may offer short-term emergency shelter as well as more long-term residential treatment.

Removal Statistics of children in Out-of-home placement for the month of August, 2007.

	Male	Female	Statewide
Count	42	48	90
Youngest	0	0	0
Oldest	16	15	16
Mean Age	5.5	4.6	5.0

Discharge Statistics of children in Out-of-home placement for the month of August, 2007.

	Male	Female	Statewide
Count	42	49	91
Mean Age	7.9	8.5	8.2
Median Age	6.0	6.0	6.0
Minimum Placements	1	1	1
Maximum Placements	19	23	23
Mean Placements	3.6	4.0	3.9
Median Placements	3.0	2.0	3.0
Minimum Time	0	1	0
Maximum Time	2,764	3,118	3,118
Mean Time	725.8	842.6	788.7
Median Time	784.0	753.0	753.0

Mean is the arithmetic mean average, commonly referred to as the 'average'.

Median is the median average, containing the middle value. Half of the observations are less than this value, and half of the observations are greater than this value.

Placements are the number of times children in OCS Out of Home placement have changed homes.

Time in Care is measured in days.

Data Source: ORCA. Program used to tabulate statistics: monthlyreport.sas.

Data in this report is as of July 1, 2008. Subsequent reports with the same date parameter will contain up-dated statistics.
